Durham City Schools
EDWIN D. PUSEY
SUPERINTENDENT
Durham, North Carolina

June 1, 1922.

Milburn, Heister & Co.,
Washington, D. C.

Dear Sirs:

The two new school buildings that you planned for us have well advanced towards completion. We have found your plans and specifications very easy to follow and, so far, nothing has arisen to cause any disagreement between the contractors and the Building Committee of the Board of Education. This I consider to be due to the extreme care with which the plans and specifications were drawn. The buildings, I believe, are going to be very satisfactory in every respect and mean to our City quite an advancement in school architecture.

Very truly yours,

Edwin D. Pusey,
Superintendent

AUDITOR

DURHAM COUNTY

DURHAM, N. C. April 16, 1917.

Mr. L. T. Barber,
Gibsonville, N.C.

Dear Sir:

Since the gentlemen comprising your Board of County Commissioners, were here in Durham to view our Court House, I understand that you have not fully decided upon the Architects who are to draw the plans for your building.

I would like to recommend to your consideration, the Firm of Milburn, Heister & Co., of Washington, D.C., and in recommending them, I feel that it is a duty we owe them for the splendid service they rendered to Durham County.

I think our Court House alone, is a model of their skill, and the completeness of the work, is due not alone to the efficiency of the Builders, but also to the supervision given the work by Milburn, Heister & Company.

I feel sure that if you see fit to award the Architectural work to them, that you will be well pleased, and do a wise thing for your County.

Very truly yours,

G. W. Flowers Chairman,

Board County Commissioners,

Durham County.

Extract from report by Surgeon General Rupert Blue, U. S. Public Health Service, to the Secretary of the Treasury, of inspection made by Passed Assistant Surgeon E. A. Sweet, Public Health Service, on sanitary features, etc., of building at 19th street and Pennsylvania Avenue, occupied by the Department of Commerce. (Reports are made frequently by Public Health Officers on all buildings occupied as offices by the Government in Washington):

"***** This building has been occupied but shortly over a year. It is a perfectly arranged office structure, modern in every respect, and sanitary throughout. The arrangement of the windows, doors and corridors affords a maximum of ventilation and light to all, and no criticism can be offered of the toilets, lavatories or other conveniences."

Messrs. Milburn, Heister & Co.,

Washington, D. C.

Gentlemen:--

Mr. Milburn's letter of the 6th just received. It has been my intention for sometime to write you how very pleased we are with the church. I have not heard a single adverse critioism. Of course there are some things we might change if we had had this experience previous but it is very satisfactory as it stands. The acoustics are good and proportions are fine, and we are very fortunate in getting so much harmony in the furniture, windows and carpet. I am handing your bill to Mr. I. F. Hill, Chairman of the Finance Committee, and I trust that he will be able to pay it very soon.

Yours very truly,

Geo. W. Watts

Gentlemen:

I desire to express to you our entire satisfaction with the building planned and erected under your direction at 9th Street and Mount Vernon Place in this city.

Our business transactions with you in connection with the erection of this building have been most satisfactory, and after occupying the building for more than two years as our International Headquarters, I take pleasure in saying to you that all of the work done for us by your company is of the highest grade.

I, therefore, have no hesitancy in giving to your company the highest appraisal for efficiency and fair dealing.

March 20, 1915

TO WHOM IT MAY CONCERN:

We have just completed what we claim is a most complete Bank and Office building. Beautiful outside and in, the proportions are synonomous with symetry, and the finishing and furnishings most admirable.

Messrs. Milburn, Heister & Co., of Washington D. C., were our architects, and we feel greatly indebted to them for the deep interest they manifested in the success and welfare of the building from foundation stone to turret.

We found Messrs. Milburn, Heister & Co. not only most capable architects, but most conscientious advisers. Our obligation to this most capable and competent firm of architects is deep and lasting, and with confidence we recommend them to persons planning to build.

Julian S. Carr
President.

MILBURN, HEISTER & CO.,
*Architects, Washington, D. C.*

OFFICE OF THE TREASURER
LANSBURGH & BROTHER
WASHINGTON, D. C.

July 31, 1919.

TO WHOM IT MAY CONCERN.

It is with a deal of satisfaction that we recommend in the highest terms Milburn and Heister, architects of this City, who drew the plans and supervised the construction of our new six story, steel and concrete building.

This building represents the last thought in Department Store construction, not only in the character of construction and layout, but in the modern and necessary utilities the building possesses.

There are many good architects throughout this country who turn out beautiful plans, yet what is required in Department Store construction is Department Store Architects, those who had experience along these lines and know what the Department Store owners and the Public demand. In other words, the departments should be first mapped out and the building constructed around these departments, rather than, the building first constructed and the departments fitted to the building.

Milburn and Heister laid out our building with this thought in mind, and we believe we have the finest Department Store Building in the East.

Respectfully,

LANSBURGH & BRO.

Treasurer.

IN RE: CONTINENTAL TRUST BUILDING.

Messrs. Milburn, Heister & Co.,
Architects,
Washington, D. C.

Gentlemen:-

In response to your inquiry of yesterday, would say that for more than five years our institution has occupied the street floor and basement of the Continental Trust building, located at north east corner of Fourteenth and H Streets, North west, and of which building your firm were the architects.

Your provision in construction for adequate light and fresh air, for our banking room, has been a continuous blessing to, and much appreciated by, its occupants.

New buildings of its kind to our mind, present a more pleasing effect than the one we occupy, and many persons have expressed this opinion of the result of your architectural effort.

Very truly your friends,

C. W. Warden

First Vice-President.

Mr. Frank P. Milburn,
% Milburn-Heister & Co.,
Washington, D. C.

My dear Mr. Milburn:-

Replying to your letter of May 12th, I am very glad to write you that after occupying our office building for a period of thirteen years, we still find it modern and up-to-date, and it serves every purpose for which it was erected.

The offices are large and convenient, and the building has been fully occupied since its completion in 1909. At this time our bank is occupying the entire ground floor, and we consider it one of the most attractive banking rooms that we know of in this section of the country.

If we had td build over, there is just one change we would wish to make, and that is in our elevators. They are rather small to serve the building, but this was due to no fault of your own.

Yours very truly,

J H Little

HOLY COMFORTER CHURCH
FOURTEENTH AND EAST CAPITOL STREETS
WASHINGTON, D. C.

June 3, 1922

Messrs. Milburn, Heister & Co.,
City.

Gentlemen:

To render honor to whom honor is due is of Scriptural authority, and I take the greatest pleasure in offering my tribute of unstinted credit and congratulation upon the Parochial School you designed for me.

By members of my profession and competent critics of other vocations, it has been pronounced as the 'ne plus ultra' in school building. The perfect combination of the practical and the artistic, the careful regard for, and insistance upon, every requisite detail, with the absence of marring and expensive superfluities, make it, indeed, a "thing of beauty and a joy forever", an incentive and inspiration to the hundreds of children that occupy it, emphasizing in its magnificence and majesty, that education is to uplift, cheer and ennoble.

The Holy Comforter School, inside and out, is itself a silent yet most eloquent teacher, and my satisfaction with this product of your genius and painstaking care is enhanced by the happiest relations that began with the pencilled drawings, continued throughout the construction and I hope will last forever.

Very sincerely yours,

George E. Wheeler

Pastor.

Gentlemen:-

It gives me pleasure to express to you the appreciation of our Officers and Board of Directors at the efficient manner in which your firm handled the plans and specifications in the work of erecting our Bank building. By your efforts, we were able to get a great deal more for the amount of money we desired to spend than we thought possible at the time we placed the work in your hands.

Our building, both from an artistic and utiliterian view, exterior and interior, is all that could possibly be desired, and the surprising and pleasing feature of the whole job was the fact that we had no extras, so complete was your work. The writer has had considerable experience with architects and building jobs, and I can say without hesitation, from every point of view, the building of our Bank under your plans and supervision was the most satisfactory operation of the kind I ever had.

With very kind personal regards to the members of your firm, and with best wishes for your continued success, I am

Very truly yours,

IN presenting this brochure it is not our purpose to show all the buildings that we have designed and erected, but rather to convey to those who contemplate building an idea of the class and character of our work executed. The wonderful progress made in all branches of building demands close thought and study, and as we have a thoroughly organized force of the best talent, with experts at the head of each department, we feel that we can assure the best possible results obtainable

With our system our clients are relieved of the usual cares and worries incident to building, and we endeavor to handle our work with thoroughness and dispatch.

We refer to any of our former clients, or to the following:
